NET Update

August 21, 2003

FY04 Seat Orders

- **All FY04 Orders must be in eMp by 01 SEPT**
- **Currently, NET Interface to eMp is nightly**
- **FY04 Orders have been pushed successfully to eMp**
- **Issues??**

Ordering Retired CLINs in NET

- **Retired CLINs CAN NOT be ordered for a new FY04 seat in NET**
  - NET will not allow this scenario to occur within the system

- **Retired CLINs CAN be ordered when Renewing or Copying a seat or seat order within NET**
  - eMp has relaxed its restrictions and will accept retired CLINs that are on renewed seats and seat orders.

- **If an order is submitted to eMp with a retired CLIN that wasn't already existing before the CLIN was retired:**
  - The correct seat will not be delivered
  - Claimant will be delaying deobligations

- **A listing of retired CLINs is located at the end of this brief**

Legacy Applications

- **Per Naval Message, NET can only push those legacy applications to buildout that are FAM "Approved" or "Approved with Restrictions"**

- **Current Plan:**

  - NET Team will provide each claimant with a list of their NOIS Legacy Applications and a list of their ISF Applications

  - Claimant must map a crosswalk between these two lists

- **If claimant chooses to import their ISF Tools legacy applications into NET, all current legacy app mapping for your claimant will be deleted**

Reports

- **Because the reporting capability is of top priority to the claimants, additional resources have been added to support the requirements gathering, development and testing of new reports**

- **Current reporting status along with reporting priority updates is listed below:**

  - **Reporting Status**

    - eMarketplace Summary Report - Testing

    - Ad Hoc Report – Made several changes to enhance performance. Currently testing

    - Shared Seats Report - Collecting requirements

    - Seat To Application Mapping Report - Working - requires additional fields

Reports

- NMCI Claimant Status Report - working but very slow. We are working on ways to improve performance.

- Detailed Seat Order Report - Coding

- CLIN Price List Report - working

- User Profile Report - working

- User To CLIN Mapping Report - working

- CLIN Summary Order Report - Testing

- Demand Model Report - not working

- **Current Reporting Priorities**

  - Seat To Application Mapping Report

  - Claimant Status Report

  - Ordered Seats by Site Code/Delivery Location and Building

  - Detailed Seat Order Report

Reports

- CLIN Price List Report

- User Profile Report

- User To CLIN Mapping Report

- CLIN Summary Order Report

- Demand Model Report

- Golddisk Only Report

- Peripheral Report?

- Peripheral Unlisted Report?

- Software Report?

- Software Unlisted Report?

- MAC Reports - TBD

Response Time/ App Performance

- **Net is deployed on 5 separate servers**
  - 2 web, 1 business logic, 1DB
  - We proactively monitor these servers during the day
  - Remote insight technology auto notifies us when any server is in trouble (sustained spikes in processor utilization)
- **Currently the DB server is our single most utilized server. (imports, copying, etc.)**
  - Processor utilization averages at 45%
  - We are currently deploying a larger server to the NET production site

- **Bandwidth to production site is nearly unlimited**

- **When performance degradation is reported to NET team, the following steps are taken:**

  - Monitor Database server- we have had to cancel threads for some processes due to amount of system resources that were being utilize for that single process

  - Verify NET Access from several different locations around the country (Crystal City, San Diego, Newport)

    - **If response time from these locations is good this signifies a local network issue for that user.**

Imports

- **Many claimants have been successful in importing data via the NET Importing Process**

- **Data must be in format as outlined in data dictionary for information to process successfully into NET**

- **NET Development team must have Org Charts and Associated UICs and Delivery Location information prior to import kick-off**

- **If issues are encountered please contact helpdesk to create a ticket and then call member of NET team**

Directors Office Reporting

- **Directors Office has requested to enter NET to query and analyze all Claimants data.**

- **Will set up schedule so that Directors office will enter NET and pull data same time each month.**

Additional Issues

- **CNI Status**

- **Combined ACTR/CTR Conference- Week of Nov. 17 in San Diego**

- **Free MACs- do not need to be placed on a task order**

Points of Contact

- **Jill Cooke, Program Manager**
  - Jill.Cooke@Navy.mil   703-795-2605

- **Meg Lombardo, Deputy Program Manager**
  - mlombardo@Bearingpoint.net   703-685-5425

- **Donna Smith, Requirements Manager**
  - SmitDM@ispec.com   703-271-2871

BACKUP SLIDES

Retired CLIN Listing

Retired CLIN	Description	Disposition	Remarks
0001AE	Remote User Credit	**RETIRED Service moved to CLIN 004105**	
0006AA	Additional Standard Wall Plug Service	**RETIRED Transferred to multiple CLINS**	
		0006AB	Unclassified Wall Plug -- Service Only
		0006AC	Classified Wall Plug -- Service Only
		0006AD	Unclassified Wall Plug
		0006AE	Classified Wall Plug -- Inside a Controlled Access Area
		0006AF	Classified Wall Plug -- Outside a Controlled Access Area
		0006AG	Project Wall Plug - Unpriced CLIN Tool Action
0008	Mission Critical Upgrade Package	**RETIRED Transferred to multiple CLINS**	
		0008AA	Mission Critical Upgrade Package -- Single Connection
		0008AB	Mission Critical Upgrade Package -- Dual Connection
0016	Additional File Share Services	**RETIRED Transferred to multiple CLINS**	
		0016AA	Additional File Share Services -- Unclassified (10Gb)
		0016AB	Additional File Share Services -- Classified (10Gb)
		0016AC	Email Storage -- Unclassified (25Mb)
		0016AD	Email Storage -- Classified (25Mb)
0026AA	Additional Moves, Adds, Changes	**RETIRED Transferred to multiple CLINS**	
0026AB	Physical MAC Group of 50	0026AG	Annual Administrative MAC
0026AC	Physical MAC Group of 250	0026AH	Annual Physical MAC
0026AD	COI MAC	0026AJ	Annual Physical MAC (needing a wall plug)
		0026AK	Annual Embarkable MAC
		0026AL	Administrative MAC
		0026AM	Physical MAC
		0026AN	Embarkable MAC

Retired CLIN Listing (con't)

Retired CLIN	Description	Disposition	Remarks
